

What's Happening at Cornell Farms

May, 2008

We had a big surprise with the snow these last few weeks. It really changes what has to be done around the farm.

The first thing is to find enough feed and bedding to keep the animals fed and dry. The snow-cover slows down the grass and

delays when we can put the animals out on pasture for the summer. We use sawdust as bedding and it seems to work well at keeping the animals dry and free from illness.

Rebecca is home for the summer. Her friend Stephanie from Scarborough is here for a few week getting farm experience (she wants to apply for vet school just like Rebecca). She has enjoyed working with the animals.

We also celebrated three birthdays and one anniversary at the end April. Because we're so busy, we

had one celebration for everything. It was a good time for the Cornell's and Darby's to get together since all the students are home from school – Brandon, Edmonton and Guelph. There was a lot of catching up to do. Garnet is now 18 years old!

Garnet had fun playing basketball against the Harlem Ambassadors. He was part of the Canadian-American team that took them on before a crowd of 900 in International Falls, Minnesota. It was a real fun night with lots of laughter, basketball tricks and dunks.
