

What's Happening at Cornell Farms

July/August, 2012

It's been so busy at Cornell Farms that we're just now getting another newsletter out. July started out with a bang with Cornells arriving to the farm from Australia, England, Alberta, Toronto, Thunder Bay... We hosted about 50 people during the weekend. Events included a Summer Musical Revue Concert with local

performers and a wonderful local foods dinner. Here are a few pictures from the concert: Garnet singing with his long-time duet partner Lauren Gurski, and Garnet and Shannon Darby (also a Cornell) performing a Leahy tune. You can find their performances on the Cornell Farms YouTube channel. Here's the whole group and the Cornell cousins from our family – Laura, Drew, Garnet, Rebecca, Shannon and Jaydon.

We also decided to do some tiling. It's a first for us. It also included creating a Municipal drain so there was a bit more work involved than usual. Here are a few pictures of the machine and the process. Tom, a relative from England who is staying with us spent some time showing cattle at the local fair. It was his first time showing.

In the middle of this hectic summer, we continued all the regular Markets around the region. We also harvested our grain. Notice the three generations of Cornell's working on the new combine.

We also had a live taping of a Christmas CD/DVD as a fundraiser for the Christmas Cheer fund. It was a great concert. Here are pictures of Ken who works for us and all the performers together.
